

Name \_\_\_\_\_

**Chapter  
9**

**Test B**

1. Find  $3 \times 40$ .

Number of jumps: \_\_\_\_\_

Size of each jump: \_\_\_\_\_

$3 \times 40 = \underline{\hspace{2cm}}$

2. Find  $8 \times 70$ .

$8 \times 70 = \underline{\hspace{2cm}}$

3. Use the Associative Property of Multiplication to find  $7 \times 30$ .

$7 \times 30 = 7 \times (\underline{\hspace{1cm}} \times 10)$

$7 \times 30 = (7 \times \underline{\hspace{1cm}}) \times 10$

$7 \times 30 = \underline{\hspace{1cm}} \times 10$

$7 \times 30 = \underline{\hspace{2cm}}$

4. Use the Distributive Property to find  $6 \times 20$ .

$6 \times 20 = 6 \times (10 + \underline{\hspace{1cm}})$

$6 \times 20 = (6 \times 10) + (6 \times \underline{\hspace{1cm}})$

$6 \times 20 = \underline{\hspace{1cm}} + \underline{\hspace{1cm}}$

$6 \times 20 = \underline{\hspace{2cm}}$

5. There are 8 packs of markers. Each pack holds 20 markers. You empty the packs and put an equal number of markers at 4 tables. How many markers are at each table?

6. You have 20 blocks. Your friend has 26 blocks. You divide your blocks into 5 equal piles. You give your friend one pile. How many blocks does your friend have now?

**9**

**Test B** (continued)

7. Newton saves \$8 each week for 30 weeks. How much more money does he need to buy a swing set that costs \$296? If he continues to save the same amount each week, how many more weeks does he need to save to buy the swing set?

8. A volleyball team earns \$40 each week selling baked items. The team wants to buy new sweatpants for \$280. After how many weeks can the team buy the sweatpants?

9. Write an equation for the quick sketch.

\_\_\_\_\_ × \_\_\_\_\_ = \_\_\_\_\_

10. Find the number that makes

$10 \times \underline{\hspace{1cm}} - 25 = 5$  true.

11. Find  $5 \times 40$ . How many hundreds are in the product? How many tens?

\_\_\_\_\_ hundreds

\_\_\_\_\_ tens
